WORKSHOP DESCRIPTION: **CIRCLES, CIRCLES, CIRCLES**

Do you love the look of circles in quilts? But are you intimidated by sewing curves?
Me too! I use a variety of techniques to create circles that are simple, easy and effective.

The workshop will cover:

- an easy method to draw a circle any size
- making and using freezer-paper templates
- design your own 12-inch square circle block patterns
- creating accurate circles using a freezer paper pattern and sewing flat overlapped seams
- circles with raw edges, covered with bias tape (or couching or decorative stitching)
- [optional] circles with turned-under edges, which are topstitched in place

You will design and make 12-inch blocks using a variety of techniques. The blocks could become a small wall-hanging, a pillow cover, or the start of a larger quilt.

NOTE: this technique can be used for almost any shape, not just for circles.

---

Supply list:

- ☐ Ruler - 12.5 inches square if you have one
- ☐ Permanent marker pen
- ☐ Pencil, coloured pencils (some will be provided)
- ☐ Eraser (white eraser works best)
- ☐ Paper scissors, fabric scissors
- ☐ Small sharp scissors for trimming close to stitching line
- ☐ Rotary cutter and cutting mat
- ☐ (optional) Iron, if you have a small one (irons will be provided by the guild)
- ☐ A selection of coordinating fabrics
- ☐ Bias tape – a variety of colors and widths (bias tape will also be provided)
- ☐ (optional) couching material (yarn, embroidery thread, etc.) to use instead of bias tape
- ☐ A variety of thread colors (including black) for topstitching bias tape and circles
- ☐ Sewing machine and all accessories, extension cord
- ☐ (recommended) open toe foot if you have one
- ☐ (optional) design wall or fleece to pin up work in progress and to transport it home

These supplies will be provided by me at the workshop:

- A handout for each participant with detailed instructions for future reference
- Several freezer paper squares for each participant
- Bias tape - various colors and widths, including ¼ black fusible tape
- Sample circle block designs for inspiration (you will create your own patterns as part of the workshop)
